*Love, love, love this product!  
It's sturdy, easy to set up, and  
keeps brushes I'm working with  
handy and easy to find, but  
completely out of my way. The  
silicone holders are easy to work  
with and don't weigh anything.  
And it's a perfect way to let wet  
brushes dry after cleaning them.

*This is professional grade multi-media paper  
weighs 130 lb., /212 gsm., has a cold press  
finish, great for many mediums, especially  
watercolor. Doesn't buckle unless you like to  
paint with LOTS of water! paint on both sides!  
50 sheets could turn into 100! It is also  
very affordable with results close to higher  
quality 100% cotton paper. - Connie Hoyt*
